Format:

On 1st day you will pick your paper court assignments out of a bowl.

The paper slips will be numbered 1-6. Whatever number is on the slip will be your court assignment for the day. Depending upon who arrives 1st on that initial day will determine their Player # for that specified court.

For example: If someone draws Court 2 and they are the first player to arrive they would be considered Player #1. The another individual arrives also picks court 2 they would be considered Player #2nd so on. This is important not only to assign rotations but also assigning responsibility for score sheet and ball return. The following week Player #'s will be assigned by an individual's previous week's game tally.

Once at your assigned court you will pair up.

For example:

First round: Player 1 & 4 vs Player 2 & 3

Everyone serves twice while keeping track of their games won. Once everyone has served twice you record everyone's total games won on the score sheet and rotate to play the 2nd round. Be sure to record games won after each round to avoid confusion.

Second round: 1 & 3 vs 2 & 4

3rd round: 1 & 2 vs 3 & 4

If time runs out in the 3rd round:

Whoever is up within that game is awarded the final game. If the score is currently tied there will be a sudden death. Whoever wins the following point wins that game. Receiver chooses who will return.

Score Sheet:

Court 1

Names	1 st Round	2 nd Round	3 rd Round	Wins	Losses
Player 1 - Sandy	8	2	5	15	9
Player 2 - Cynthia	0	6	5	11	13
Player 3 - Misa	0	2	3	5	19
Player 4 - Yessica	8	6	3	17	7

Whoever is the #1 player on each respective court is responsible for returning completed score sheet and match balls back to the front desk.

Weekly Tally Sheet:

Court assignments for the following week will be based upon the individual's total games won. Largest amount of games on court 1 with lesser amount of games going to court 2, 3, 4, 5, 6 etc Ordered by the quantity of participants which is 24. Please see example below:
